

Road Map for next 2 months

Java learning Roadmap

→ phase 1 : Java crash course

- JVM, JDK, JRE, variables
- control flow - loops
- methods, Arrays
- OOps, Encapsulation
- oops, inheritance, polymorphism, Interface
- Collections, Exceptions
- String, Static, final, packages
- JDBC, JPA, Spring Boot web view
- GitHub Push

→ phase 2 : Backend Mastery

→ Core Java Advanced

- multithreading, concurrency
- JVM, memory modeling, GC
- Design Patterns

→ Spring Boot Mastery

- DI, IOC, AOP, Internals
- Spring Security, Basics
- JPA, hibernate, deep

→ DSA

- Array, Strings, complexity
- Sorting, Searching, Recursion
- Stacks, queue, linked list
- Trees, Graphs
- Intro, DP

→ Tooling, Kafka, SQL

- Junit, Mockito
- Jenkins, CI, CD
- SonarQube, Coverage
- Apache kafka
- SQL, deep

→ phase 3 : System Design, Microservices

- loadBalancing, caching, cap
- HLD, LLD, practice
- Microservices, Resilience
- Docker, Basics

→ phase 4 : Frontend, Secondary

- HTML, CSS
- JavaScript, fundamentals
- Angular, Basics

→ phase 5 : Cloud, DevOps, light

- Kubernetes, Intro
- AWS, Basics

→ phase 6 : Interview Sprint, Apply

- mock Interview
- Resume, portfolio, polish
- leetcode, Rampup
- Job applications

→ Gross Cutting

- Sunday, Behavioral Interview practice
- English 1-2 hours on Sunday
- Korean, French → 3 hours on Sunday
